

Casio to Release G-SHOCK with Octagonal Metal Bezel Metal watch based on popular GA-2100 with a slim profile and streamlined design

GM-2100

[Norderstedt](#), July 15, 2021 — Casio [Europe GmbH](#) announced today the latest addition to the G-SHOCK line of shock-resistant watches. The new GM-2100 is based on the GA-2100, which is popular for its octagonal shape and streamlined design, but now incorporates a metal bezel for an even more stylish look.

Released in 2019, the base-model GA-2100 inherited the concept of the DW-5000C, the very first G-SHOCK, but was a digital-analog combination model with a slim profile and streamlined design. With its distinct octagonal shape and straightforward design, the GA-2100 has been a popular choice worldwide, particularly among young people.

The new GM-2100 retains the streamlined form and slim profile of the GA-2100, but adds a new forged metal bezel to give the watch a sharper look. A round hairline finish is applied to the top surface of the bezel and a mirror polish to the sides, giving it a beautiful metallic gleam. Options with blue-gray IP (GM-2100N) and dark gray IP (GM-2100B) bezels are available, to suit any smart style. The dials are treated with a vapor deposition finish in new navy blue, green, and red hues to achieve appealing metallic color schemes. The watch band employs a square dot texture with incremental variations in dot size, resulting in a sharp look to match the face design.

Models	Dial color
GM-2100-1A ER	Black
GM-2100N-2A ER	Navy blue
GM-2100B-3A ER	Green
GM-2100B-4A ER	Red

GM-2100-1AER

GM-2100N-2AER

GM-2100B-3AER

GM-2100B-4AER

Specifications

Construction	Shock-resistant
Water Resistance	20 bar
World Time	48 cities (31 time zones, daylight saving on/off) and Coordinated Universal Time (UTC)
Stopwatch	1/100 second (00'00"00 to 59'59"99) / 1 second (1:00'00" to 23:59'59"); measuring capacity: 23:59'59.99"; measuring modes: elapsed time, split time, 1st-2nd place times
Countdown Timer	Measuring unit: 1 second; countdown range: 24 hours; countdown start time setting range: 1 second to 24 hours; 1-second accuracy
Alarm	5 daily alarms; hourly time signal
Other Functions	Full auto-calendar; 12/24-hour format; button operation tone on/off; hand shift feature; double LED light (Super Illuminator, afterglow with selectable illumination duration: 1.5 or 3 seconds)
Accuracy at Normal Temperature	±15 seconds per month
Battery Life	Approx. 3 years on SR726W × 2
Size of Case	49.3 × 44.4 × 11.8 mm
Total Weight	Approx. 72g
